CMS TDC Profile

- As the Information Technology domain spreads its complex identity, it becomes mandatory for the budding systems integration & networking professional to have the
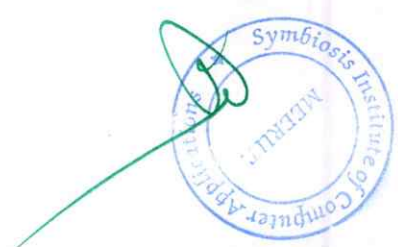

right theoretical and practical exposure to technology. Academic qualification will surely take you, a budding IT professional, to the qualifying mark, but from there making the finishing line on a winning note is a fine combination of studying real life scenario with guidance from thoroughbred professionals who actually live technology.

- In a world where obsolescence is commonplace, CMS Institute's core competency lies in identifying your talent, understanding your aptitude, studying your needs and then nurturing you to reach the summit of technical excellence. CMS training opens exciting careers in technical support, facility management, projects, marketing, management & back-office operations relevant to hardware, systems integration & networking. CMS trained students have rocketed from junior executives to team leaders, project heads and management professionals.

- CMS Institute's profile can be briefly noted as follows:

    - ✓ Over 50 training centers
    - ✓ A large partner network for training
    - ✓ Over 500 employees & 200 certified trainers
    - ✓ More than 10,00,000 trained students
    - ✓ Over a 100 medium & large corporate clients
    - ✓ ISO Certified - Design & Development Centre
    - ✓ ISO Certified - 10 Centers & 8 Cities for Training
